

Visa Ready Program for mPOS | Approved Solutions

Visa Public September 2014

The Visa Ready Program for mPOS is intended to help mPOS hardware manufacturers, software developers, merchants, payment facilitators and acquirers build and implement mPOS hardware and mobile client application software that meets Visa Inc. requirements for a reliable, convenient, and secure mobile point of sale experience. The devices and / or software listed below conform to Visa Ready requirements.

¹Chip & PIN devices are approved for use in all Visa Inc. countries and territories; ²Chip & No PIN devices valid only in select Visa Inc. countries and territories; ³Mobile client application is approved on the condition that it does not support manual key entry of primary account number (PAN) details. <i>Note that all devices include magnetic stripe card acceptance.</i> Visa’s designation of a device as “Visa Ready” does not include any endorsement or warranty regarding the functionality, quality, or performance of any particular product or service, including without limitation any implied warranties of merchantability, fitness for purpose, or non-infringement, all of which are expressly disclaimed by Visa. Visa does not warrant any products or services provided by third parties, regardless of whether they have been designated as “Visa Ready.” All rights and remedies regarding products and services that have received the “Visa Ready” designation shall be provided by the party providing such products and services, and not by Visa. Visa may revoke the designation at any time. The “Visa Ready” designations granted to the products and/or services in this list are in compliance with the Visa Ready Program for mPOS Requirements. However, due to the nature of each product or service (e.g., an mPOS dongle designed for a mobile OS that is used in connection with multiple different manufacturers’ devices), some of the Visa Ready Program for mPOS Requirements cannot be validated against each type of device (such as a mobile phone or tablet) with which the “Visa Ready”-designated product or service is intended to be deployed.
